

# PAGLIANI SERVICE

## SOLIDITY AND DYNAMISM

### From Experience to Service

70 years of experience in the fields of mechanics, hydraulics, electrics and hydraulic are the backbone of the newborn **Pagliani Service**, a mechanics workshop specialised in the overhaul and diagnosis of automatic transmissions and all other ZF products (as service partner).

Since 2006, a year of growth and change, we have been an authorised workshop by VANHOOL as well as Menarinibus, Karsan, Zonson Smart Auto, WABCO, Termo King, offering a highly professional and punctual service.

Thanks to innovative technology and highly qualified personnel, we can guarantee to solve complex problems, both off-site and at the customer's own depot.

Our customers' satisfaction with our work and services and the ever-growing network of partners represent the intangible assets we acquired over these years of commitment and dedication.

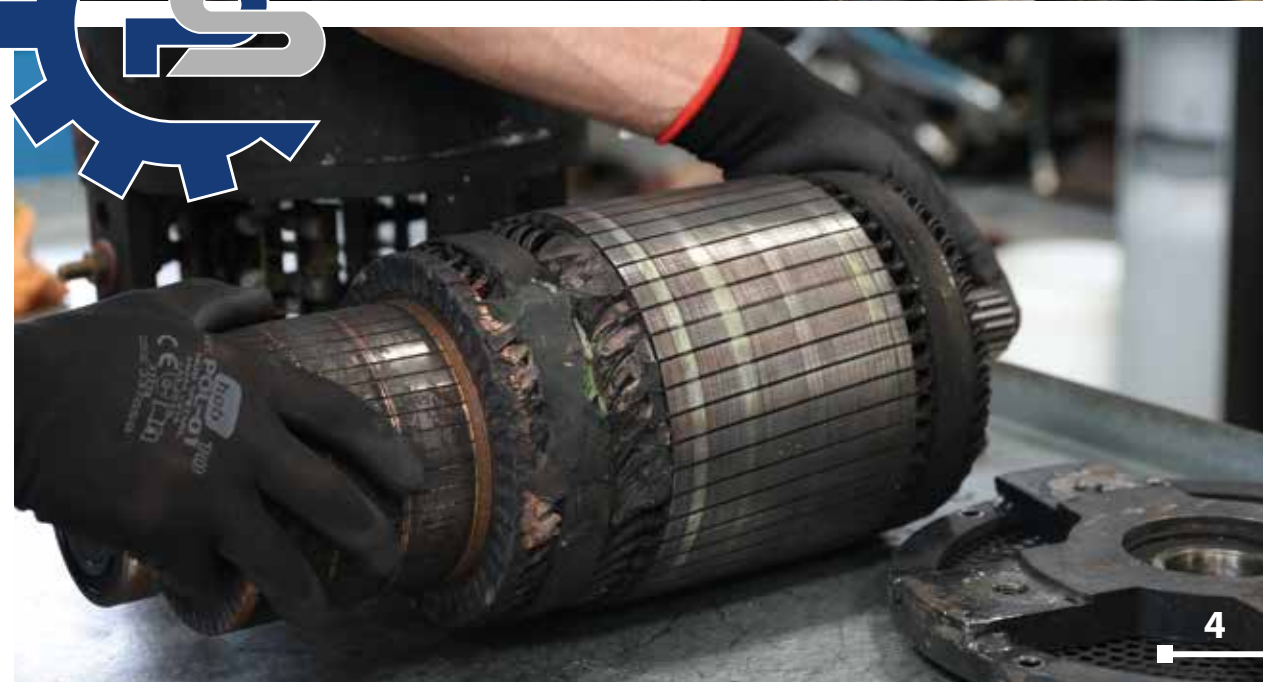

## SOLIDITY AND DYNAMISM

### A Success Story

Dynamism, courage and entrepreneurship are the distinctive features of the company's top management which, since 2014, have led Pagliani Service with pride and integrity towards increasingly innovative solutions, in line with the evolution of the automotive market.

# SERVICE

# OUR SERVICE

## LARGE FLEET MANAGEMENT

Repair, maintenance and preparation of vehicles, special operating machines, buses and industrial vehicles (including trams, trolleybuses and trains) and mechanical, electrical, pneumatic and car body parts.

## ELECTRICIAN AND TYRES

Repair of electrical parts and repair and installation of tyres.

## ROADSIDE ASSISTANCE

Roadside assistance.

# QUALITY YOU CAN TRUST

Maintenance and repair of endothermic, electric and gas vehicles.

**MAINTENANCE AND REPAIR**

**OVERHAUL**

Overhaul of endothermic engines, turbines, lithium traction batteries, etc.

## PAGLIANI SERVICE

Retail and wholesale, also as a dealer of buses, including full electric ones.

**SALE OF VEHICLES**

Our expertise and specialization in the sector of large mechanics workshops and in the management of large fleets, allow us to provide our customers with solutions that comply with the highest standards in the automotive sector and meet market demands in an effective, fast and innovative way.

## MISSION

# OVERVIEW

## VISION

To be the reference partner in the market of large mechanics workshops and become the strong point of autonomous and sustainable mobility.

Become a benchmark for electric bus sales in Italy and Spain.

# PACILIANI

**SUSTAINABILITY:** on daily basis we take care of the ecosystem that hosts us. All processes throughout the value chain are implemented with the environment in mind.

**EXPERIENCE:** years of work on mechanics, electrical, hydraulics and pneumatic. Excellent knowledge of the diagnosis and overhaul of automatic transmissions and tested parts.

**RESEARCH:** we are in continuous search for innovative solutions; dynamism is our distinctive feature that allows us to establish winning partnerships for the development of new ideas.

**VALUE TO PEOPLE:** we encourage everybody's contributions to build a successful team oriented towards excellence.

**INTEGRITY AND TRANSPARENCY:** are inseparable key elements of a company where quality and safety are guaranteed for people and the environment.

**CUSTOMER SATISFACTION:** we strive to establish a collaborative relationship with customers based on mutual trust and credibility; the satisfaction of our customers is our priority.

**EVOLUTION/INNOVATION:** our staff, highly qualified and periodically trained on technology advances, is able to satisfy customers and to find the most modern and advanced solutions.

# NEW WEEE RECYCLING PLANT

## Circular Economy

The new production site (Guidonia Montecelio - RM), designed with the aim of differentiating and integrating company activities, will host a recycling plant for waste electrical and electronic equipment (WEEE). The project, funded by the European Union - NextGenerationEU (PNRR), addresses a shortage of recycling facilities in the Lazio Region, enabling the recovery and valorization of critical materials with a view to developing the circular economy.

# SENTINEL

by ProximaLabs

**ProximaLabs**, an innovative spin-off of Pagliani Service, was created to enhance **public transport safety** through artificial intelligence. The company aims to reduce workplace accidents and ensure greater protection for public transport users, especially in maintenance and parking areas.

Its main goal is to minimize risks associated with local public transport (LPT) operations and to strengthen public trust in the transportation system.

## SOLIDITY AND DYNAMISM

### Act Local

Today Pagliani Service operates in a modern and spacious structure of about 6,000 sqm in the industrial area of Guidonia (RM); our workshop, in order to guarantee an immediate service, is strategically located a stone's throw from the Rome - L'Aquila motorway connection and the GRA (the Rome Orbital Motorway).

Our large warehouse has all the parts necessary for OVERHAULING-REPAIRING bodywork and mechanics, with the added value of being connected in real time with the ZF and Menarinibus logistics center to source missing components. We also guarantee an immediate service and on-site assistance thanks to our fleet of "mobile workshops". We currently operate in the regions of Lazio, Campania and Lombardy.

**SERVICE**

## Maintenance and beyond

Our present and future goal is to work with a "glocal" perspective; **Anticipate the future to make the present more certain while maintaining a focus on scalability.**

Our current commitment is research, innovation, project implementation:

Spin-off ProximaLabs

relamping lithium battery

WEEE recovery

predictive maintenance
